Call to Action. The threat to the long-distance network is significant and growing day by day. The House has passed excellent legislation that would prevent these cuts, but the Senate has yet to act. Please contact Senators Sinema (<https://www.sinema.senate.gov/contact-kyrsten>) and McSally (<https://www.mcsally.senate.gov/contact/email-martha>) and urge them to fund Amtrak to avoid the layoffs and the tri-weekly service reductions. Please contact them often, as congressional staff's tally the number of contacts on an issue. It is also helpful to contact your Congressman or Congresswoman as well. The House may have to act again if the Senate makes changes. Stopping this action is critical to Amtrak's survival and to preserving the taxpayer's investment in the long-distance network. Together, we can hopefully turn this threat back, and get back to work focusing on expanding rail in Arizona.

Thanks!

Todd
